

# DEVELOP A PYTHON SCRIPT

TeamID:PNT2022TMID19077

The image shows two windows from the Python IDLE environment. The top window, titled 'Sum.py - C:\Users\logha\Documents\Python\Sum.py (3.10.8)', contains a Python script for calculating the sum of two numbers. The script prompts the user to enter two numbers, reads them, calculates the sum, and prints the result. The bottom window, titled 'IDLE Shell 3.10.8', shows the execution of the script. It displays the Python version and system information, followed by the execution of a test print statement and the execution of the Sum.py script, which shows the input values and the resulting sum.

```
Sum.py - C:\Users\logha\Documents\Python\Sum.py (3.10.8)
File Edit Format Run Options Window Help
a = int(input("Enter number 1:"))
b = int(input("Enter number 2:"))
sum = a + b
print("SUM = ",+sum)

IDLE Shell 3.10.8
